Dear Mr. Dulles:

Within a few weeks you will receive a copy of the Cruise History Book, "Operation Deep Freeze III". It is sent to you with the respectful compliments of the men of Task Force 43 of the United States Navy.

This book is the graphic record of the third phase of our polar expeditions during the International Geophysical Year.

Thanks to the assistance of the National Academy of Science and to Miss Catherine Harriott and Mr. G. Earl Nichols of our publishers, seven months of production work will be handsomely exhibited in this volume.

I hope it truly projects the gripping events just as they were lived and recorded and we would welcome your suggestions for future volumes.

Sincerely yours,

*Morton Beebe*
